### Summary

---

After five years in the fine dining world, I made the switch to software engineering in January 2022. This change was driven by my passion for problem solving and the desire to create something meaningful. My background in theatre and hospitality gives me a unique advantage in forging connections with new people and delivering unparalleled customer service, and during my time at General Assembly I sharpened my skills in HTML, CSS, JavaScript, and Python.

### Skills

---

- Languages & Frameworks: JavaScript, Node, Express, HTML, CSS, Bootstrap, Mongoose, React, Python, Django
- Management & Deployment: Git, GitHub, Command Line
- Databases: SQL | PostgreSQL | MongoDB
- Methodologies: Object Oriented Programming | MVC Pattern | Test-Driven Development | Responsive Design | Authentication | User Stories | ERDs | Wireframing

### Experience

---

#### General Assembly

Feb 2022 - Present

#### Software Engineering Immersive Student

Remote

- 12-week, 500+ hour training program focused in Git/Github, HTML, CSS, JavaScript, Node, MongoDB, SQL, Python, etc.
- Project 1:
  - Created a side-scrolling videogame using HTML, CSS, and JavaScript in which a player avoids obstacles and collects power ups to reach their friend's house.
- Project 2:
  - Built a full-stack application using Node, Mongoose, Liquid, CSS, and Bootstrap that serves as a companion to Dungeons and Dragons 5<sup>th</sup> edition. The app allows users to create, view, and update characters, add a list of spells pulled from a third-party API to the characters, and create their own custom spells.
- Project 3:
  - Collaborated with a team to build a full-stack application with its own API utilizing Mongoose, Node, React, mapbox, CSS, and Bootstrap. The app allows users to log outdoor recreational activities called "adventures", view other user's adventures including a map of the adventure area and the current weather and temperature, as well as comment on other user's adventures.

#### Kumiko

May 2020 – Nov 2022

#### Lead Bartender

Chicago, IL

- Executed high level cocktail service.
- Assisted in the development of drinks and curation of wine, sake, and spirits.
